

Hello and welcome to Algebra 1 at Veritas. My name is Beth Wheatcroft, this is my seventh year teaching math at Veritas, and I am looking forward having you in class this year.

A little about me. I was born and raised in Wyoming before moving to Kansas to attend college where I met the man who would make me Mrs. Wheatcroft. We spent the first three years of marriage in Kansas City while my husband completed his chiropractic studies. During those years in Kansas City, I taught for almost two years before we welcomed our first daughter Maddie to our family. Upon my husband's graduation from chiropractic school in the spring of 2005, we moved to Chattanooga. The rest of our children have been born here in Chattanooga - Ella (18), Isaac (14), and Clara (10). I love calling Chattanooga home!

We have enjoyed the blessing of homeschooling our kids from the beginning and by God's grace, successfully graduated our two oldest kids. It has been sweet to watch our oldest flourish during her first two years at UTC where she also runs for their cross country and track teams. And we are excited to watch our next oldest, Ella, as she begins her college journey at Bryan College where she will also be playing volleyball. Our family enjoys being active in a variety of sports, as well as playing games together at home. We have attended Calvary Chapel Chattanooga for 18 years and also enjoy being involved in the children's ministry there each week. Outside of being a wife, a homeschool mom, and a teacher, I also keep busy coaching volleyball for the CSTHEA Patriots.

Something you will come to learn about me is that I LOVE math and I love how the Lord continues to show me snippets of His character and kingdom through it. I am so excited to share with you what He's been teaching me!

Enjoy the rest of your summer and please let me know if you have any questions as you prepare for this class.

Mrs. Wheatcroft
